AUS: Goods shipped between **1 September and 30 April**
NZ: Goods shipped from **1 September and arrive 30 April**

BMSB SEASONAL MEASURES

Overview BMSB season 2023/24

Developments 2023/24

BMSB seasonal measures have been part and parcel of the process of exporting goods to Australia and New Zealand. The new season follows and builds on previous seasons with the only update being the addition of Uzbekistan to the list of target risk countries for the 2023/24 BMSB risk season.

Target high risk goods (tariff classifications)

- 44
- 45
- 57
- 68
- 69
- 70
- 72
- 73
- 74
- 75
- 76
- 78
- 79
- 80
- 81
- 82
- 83
- 84
- 85
- 86
- 87
- 88
- 89

If you are not sure which code applies to your goods, please contact us. **We can do a compliance check for you!** Please note: tariff classifications 27, 28, 29, 38, 39, 40, 48, 49, 56 do not require mandatory treatment. However, they are subject to increased onshore intervention through random inspection.

BMSB treatment locations

Address	Delivery times	Type of cargo
Reeweg 25 3089 KM Rotterdam	Working days 06:00 - 23:00hrs	(IMO) Containers

EWSGROUP
ECO WORLDWIDE SOLUTIONS

120 hour transhipping window: Goods (FR, OT container or breakbulk) from non-target risk countries that have been in transit in target risk countries for more than 120 hours must still be treated.

120 hour post treatment window: Goods must either be loaded into a container and sealed or loaded onto a vessel for export from the target risk country within 120 hours (AUS: only until 1 Dec.).

DO MY GOODS REQUIRE TREATMENT?

Are the goods destined for Australia or New Zealand?

Yes

No

Will the goods be shipped between 1 Sept. and 30 April?

No

Yes

Have the goods been manufactured in, or shipped from a target risk country?

No

Yes

Albania, Andorra, Armenia, Austria, Azerbaijan, Belgium, Bosnia and Herzegovina, Bulgaria, Canada, Croatia, Czechia, France, Georgia, Germany, Greece, Hungary, Italy, Japan, Kazakhstan, Kosovo, Liechtenstein, Luxembourg, Moldova, Montenegro, Netherlands, Poland, Portugal, Rep. of North Macedonia, Romania, Russia, Serbia, Slovakia, Slovenia, Spain, Switzerland, Türkiye, Ukraine, United States of America, Uzbekistan

Do the goods fall within the following tariff classifications?

No

44, 45, 57, 68, 69, 70, 72, 73, 74, 75, 76, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89

Yes

Your goods do NOT require treatment.

Your goods do NOT require treatment, however...

Goods within tariff classifications 27, 28, 29, 38, 39, 40, 48, 49, 56 are subject to random inspection.

Your goods DO require mandatory treatment.

Contact one of our experts for advice on the right BMSB treatment method for your goods.

CONSIGNMENT SUITABILITY

Key factors that affect the suitability of goods for treatment are free airspace/load capacity and impermeable wrapping/packaging. Goods also need to be palletized.

- Free air space should be available in between and around the goods within the treatment enclosure (approx. **30cm for fumigation** and **50cm for heat treatment**).
- The goods should only be wrapped or covered in a way that allows the treatment to access all surfaces.
- Shipping packing/wrapping must be opened, removed or slashed to make it permeable.
